

Team Chicklets started as two sisters with one goal in mind, to ride and have fun. This goal has never changed. Making lots of friends along the way. With a bit of sisterly competition they sure like to "bring it on" at the track. They have had their fair share of ups and downs... but have always tried their hardest and have had some very successful finishes.

As two girls who ride they have a very busy schedule. They are always on the go between competitive cheerleading and atv practicing

"play riding" and racing.

The girls would like to put out a special thanks to all the dads that help out at the track. It really sets in a family atmosphere for all kids racing.

We as a race team and family would like to thank Lou and all the DRR staff. The customer service has been amazing. We look forward to racing many more years with DRR's.
